

In the Spotlight...

Our Mission – Creating images & stories that beautifully capture the people, places and events that matter to you. As a professional photographer with over 20 years experience, let me tell your story in the best possible light, color and spirit.

Our Background – I have dedicated my career to working in all aspects of photography. I began as a gallery assistant and darkroom printer in New York before being named picture editor of Orion Magazine in 1992 and moving with it to Great Barrington 1996. My work with Orion totaled 13 years with breaks to raise my three children. In recent years I've built my photography business and work with clients including AIER, Berkshire Magazine, CATA, Fairview Hospital, Mahaiwe Theater, Jacob's Pillow, Barrington Stage Company, the Berkshire Playwright's Lab, Hudson Opera House and many others. I have served as a juror for portfolio reviews and photography festivals and I consult other photographers, helping them effectively present their best work to publications, galleries, and their clients. I specialize in portraits, events, reunions, editorial and corporate photography.

Our Blueprint for Success – The key to my success & what keeps me thriving is working and living these core practices:

- Believing that everyone and everything in the right light is beautiful.
- Knowing that communication with clients is paramount to arriving at the alignment of ideas and vision, resulting in great imagery.
- Connecting with a community of artists and photographers who inform and support one another.
- Capturing your story in the best possible light, color and spirit
