

In the Spotlight...

BERKSHIRE GREAT FINDS COOL OLD STUFF

Our Mission – To maintain a physical store location in our small community where shopping can still be a feel good, hands on experience providing needed goods and services. Focused on recycled and repurposed antique and vintage as well as new items to fit today's lifestyles.

Our Background – Great Finds was born 20 years ago when we bought our building from the “Corn Crib” which was a local favorite farm market. We were painting inside as folks wandered in even though we were not yet open for business. They searched thru inventory boxed and stacked haphazardly exclaiming this is a “Great Find” as they pulled out their treasures. After a dozen or so excited “Great Find” exclamations we looked at each other and said “guess that’s our name” – Great Finds stuck. We still hear customers saying it with the same excitement almost every day!

Our Blueprint for Success – Networking across town, state and country. Being retail in a very small community means a very small customer base. We try to expand our borders as much as possible! We’re open to suggestions if anyone has any great ideas or connections!!
